

Microsoft Office 365

Modernize your workplace.
Empower your workforce.

Today's businesses need to provide a modern workplace – and tools – to attract and retain top, talented employees as well as encourage forward thinking that will help maintain a competitive edge. Microsoft Office 365 changes the way work is done.

Most businesses view Microsoft Office 365 as cloud-hosted email, instant messaging and a company intranet site. Our approach is to look at Office 365 as a service - with offerings around security, intelligence and insights, virtual meetings and hosted telephony. It's time to wrap your arms around all that is Office 365 and how this technology can help you modernize your workplace and workforce.

EMPOWER. OPTIMIZE. MODERNIZE.

Office 365 can turn your workstation into a mobile office. Our findings show that over 85% of businesses that have moved to Office 365 have not realized the full potential of the true capabilities offered by the solution. The Office 365 suite of products can protect your data, improve your business processes, increase productivity, improve collaboration and truly modernize your workplace.

EMPOWER EMPLOYEES

- Provide employees with the tools and secure access needed to enable productivity anytime, anywhere and on any device.
- Enable true collaboration across your business by leveraging the best available tools to create and share information and ideas.
- Provide peace of mind to employees and business leaders knowing that the most advanced enterprise-grade security is protecting your corporate data.

OPTIMIZE OPERATIONS

- Maximize technology investments and enable your IT department to evolve with your business needs.
- Eliminate isolated processes and decentralize information by enabling automation and workflow to improve efficiency.

ABOUT IMPROVING

Improving is a technology management and consulting services firm deeply rooted in our commitment to establishing trust - not only with each other, but with our clients, partners, stakeholders, communities and others. We aspire to do this through creating transparency, delivering results, continuously improving, clarifying expectations and keeping our commitments.

Sharing the same values and passion for commitment, trust and excellence, ProSource Solutions joined the Improving brand in 2017, becoming Improving – Cleveland. ProSource's service offerings focus on delivering critical information systems and business process improvements in four major areas – modern workplace, business applications, hybrid data center, and advanced business insight. The merger significantly strengthens the breadth and depth of the technical consulting services and training offerings that can now be utilized across all of Improving's markets. ProSource is a successful, award- winning Microsoft Gold Certified partner that helps customers across industries, including: Financial Services, Retail, Manufacturing and Professional Services.
